About Me

Passionate and versatile Software Engineer with a strong foundation in web technologies, creative graphic design, and a deep commitment to humanitarian work. Adept at building responsive, user-centered web applications and blending tech with purpose-driven initiatives. Proven track record in project leadership, digital advocacy, and community impact. Driven by innovation, collaboration, and a vision to contribute to global development goals through technology and service.

Work Experience

2023

-

2024

ZINDIGI PRIZE KENYA | Kenya Tech Cordinator

- Led the technical execution of a national innovation challenge.
- Supported participant onboarding, platform stability, and digital event facilitation.
